CARE INSTRUCTIONS FOR GLOVES

In case gloves need to be cleaned we suggest washing the gloves by hand with regular laundry detergent and lukewarm water. No softener should be used for gloves including a membrane in order to prevent any functional damage. The gloves should dry slowly by air. Do not dry the gloves on a heater. This can cause cuts and other damages to the leather. After drying, treat leather made palms with dubbing or a similar type of regular leather care product to enhance the duration of the leather and maintain its smoothness.

We advise to clean full leather gloves only by wiping them with a wet tissue and accordingly treating them with leather care products afterwards. Please be aware of any care instructions given by the manufacturer of the used leather care product. Again, do not dry on a heater.

Please be also aware of any care instructions inside the glove.

PFLEGEHINWEISE FÜR HANDSCHUHE

Besteht die Notwendigkeit, die Handschuhe zu reinigen, empfehlen wir, die Handschuhe in einem handwarmen Wasserbad mit einem Feinwaschmittel zu waschen. Bei Handschuhen mit Membran sollte dabei auf Weichspüler verzichtet werden, um die Funktionalität der Membran nicht zu beeinträchtigen. Trocknen Sie die Handschuhe nach der Reinigung langsam an der Luft. Um Risse im Leder zu vermeiden, legen Sie die Handschuhe dabei nicht auf Heizung oder Ofen. Pflegen Sie Handflächen aus Leder nach dem Trocknen mit Lederfett oder einem handelsüblichen Lederpflegemittel, um die Haltbarkeit des Leders zu verlängern und seine Geschmeidigkeit zu erhalten.

Für Volllederhandschuhe ist es ratsam, diese zum Reinigen nur mit einem feuchten Tuch abzureiben und anschließend mit Lederfett oder einem handelsüblichen Lederpflegemittel zu behandeln. Beachten Sie dazu die Hinweise des jeweiligen Pflegemittelanbieters. Verzichten Sie auch hier auf das Trocknen auf Heizung oder Ofen.

Bitte beachten Sie zusätzlich die Pflegehinweise im Handschuhinneren.

INDICAZIONI PER UNA CORRETTA PULIZIA DEI GUANTI

In caso di pulizia dei guanti vi consigliamo di lavarli a mano in acqua tiepida con normale detersivo per capi delicati. Nei guanti con membrana è importante rinunciare all'aggiunta di ammorbidente per non comprometterne la funzionalità. Dopo aver lavato i guanti, lasciarli asciugare lentamente all'aria. Non appoggiare mai i guanti su termosifoni, stufe o fonti di calore dirette per evitare che il pellame si rovini. Quando i guanti saranno asciutti è consigliabile spalmare sulle parti in pelle grasso o creme specifiche per pellame per prolungare la durata del pellame e mantenerlo morbido.

Per i guanti interamente in pelle vi consigliamo di pulirli con un panno umido e, una volta asciutti, di trattarli con grasso o creme specifiche per pellame, seguendo attentamente le istruzioni del prodotto scelto. Anche in questo caso lasciare asciugare i guanti lentamente all'aria e non appoggiarli su termosifoni, stufe o fonti di calore dirette.

Seguire inoltre le istruzioni situate all'interno del guanto.

INSTRUCTIONS D'ENTRETIEN

Reusch déconseille de laver les gants en machine. Les gants en tissu peuvent être lavés à la main à l'eau tiède et au savon. Les gants avec membrane ne doivent jamais être lavés avec des assouplissants, car l'assouplissant boucherait les pores de la membrane et détruirait sa fonctionnalité. Rincez abondamment les gants et laissez les sécher sur une serviette à l'air libre. Reusch déconseille de sécher les gants sur un chauffage, les gros écarts de température peuvent détériorer les matériaux.

Les gants en cuir ne sont généralement pas salissants. Les petites tâches peuvent être ôtées avec un chiffon humide. Pour enlever les tâches plus importantes, veillez à utiliser un nettoyant spécial gant ou un produit d'entretien adapté au cuir. Si le gant est humide, Reusch recommande un traitement avec une graisse spéciale pour garantir l'imperméabilité et la longévité du cuir. **Veillez à toujours suivre les instructions des étiquettes d'entretien attachées au gant.**
